

ADR REPORTING FORM – CASE EXERCISE

A. PATIENT INFORMATION

1. Patient Initials: RP
2. Age: 32 years
3. Sex: Male
4. Weight: 65 kg

B. SUSPECTED ADVERSE DRUG REACTION

5. Date Reaction Started: 03/03/2026
6. Date of Recovery: 06/03/2026
7. Description of Reaction: Generalized itching and skin rashes over the chest.

C. SUSPECTED MEDICATION

Field	Details
Name of suspected drug	Amoxicillin
Dose	500 mg
Route	Oral
Frequency	TID
Therapy start date	01/03/2026
Therapy stop date	03/03/2026
Reason for use	Acute bacterial sinusitis
Manufacturer	Not provided
Batch/Lot number	Not provided
Expiry date	Not provided

9. Reaction Abated After Drug Was Stopped: Yes
10. Reaction Reappeared After Reintroduction: Unknown / Not applicable, as the drug was not reintroduced.
11. Concomitant Medications: Not applicable
12. Relevant Laboratory Data: Not applicable
13. Relevant Medical/Medication History: No history of allergy.

D. SERIOUSNESS OF THE REACTION

14. Seriousness: None of the listed serious criteria were reported.

Criterion	Status
Death	No
Life-threatening	No
Hospitalization	No
Disability	No
Congenital anomaly	No
Intervention to prevent permanent impairment/damage	No
Other	No

E. OUTCOME

15. Outcome: Recovered

Date of Recovery: 06/03/2026

F. REPORTER INFORMATION

16. Name and Professional Address: [Your Name / Address]

PIN: [Your PIN] **E-mail:** [Your Email]

Contact No.: [Your Contact Number]

Signature: [Your Signature] **Occupation:** Pharm D Student

17. Causality Assessment: Type B ADR – Unpredictable and not dose dependent.

18. Date of Report: [Date of submission]

CASE SUMMARY

A 32-year-old male patient weighing 65 kg, diagnosed with acute bacterial sinusitis, was prescribed amoxicillin 500 mg orally three times daily. Treatment was initiated on 01/03/2026. On 03/03/2026, the patient developed generalized itching and skin rashes over the chest. Amoxicillin was discontinued on the same day, and the patient was treated with antihistamines. The patient recovered completely by 06/03/2026.

ADR Classification: Type B – Unpredictable and not dose dependent.
